The Andalusia Star is warning to you the biggest hog raised in Alabama last year.

We have had so much cold weather during the past 30 days till the ground hog and his shadow isn't cutting any figure.

There is hardly any appreciable increase in the circulation of the Cour-Journal since its editor started on something new.

A Maryland legislator has introduced a bill making it unlawful for any person to sue to an assertion reflecting on the good name of a woman. He may get the bill through which will be good if the officers will enforce the law.

Just at this time there is no saying whether or not an extra session of the Legislature will be called. If the politicians want it, they will probably devise some way of getting it. They must always get what they want, after a manner.

A man in Manchester was given a wooden leg the other day, with the distinct understanding that he was never to sell, loan, or pawn without the consent of the majority of the trustees. The article didn't state whether the man has two legs of the ordinary kind.

The first time that Governor O'Neal gets a chance, he ought to sling loose from the Howles, the fellows, or the one man, who has caused the governor so much embarrassment in the way of getting a pardon and then being put back in the jug for other offenses. The governor of any state, cannot be too particular about the friends he has.

If, as it has been suggested, Nagel is Taft's choice for Supreme Court, then we suppose Nagel it will be, since Taft is about the only man who will have a say on the appointment. You ought as well call him Judge Nagel right from this minute, if Taft says he is his choice.

According to the Prattville Progress, any woman appearing in the state of Michigan wearing a hat that is more than 10 inches long is guilty of felony and may be fined \$500, or imprisoned for two years, or both, at the discretion of the court.

The Birmingham papers tell us of one man in St. Clair county who is selling a hundred dozen eggs a day from 1,000 hens, and getting 40 to 15 cents per dozen. Dothan growers and produce merchants please take notice. So long as eggs can be bought in the Dothan market for from 22 to 25 cents per dozen, there is money in shipping them to Birmingham, if they are paying 10 to 15 cents per dozen.

A COUNTY FAIR
This is the time to begin the agitation of a fair for Houston county this fall. There is no reason why we shouldn't keep a lot of money here, that is carried to Birmingham and Montgomery each fall.

This county is a new county, but it has people old in farming experience, and they are getting more every year. The better agricultural show we can get up, the more people will be anxious to come here and settle among us.

It looks like the business men of this town should consider some prizes now. No use to wait till the crops are all planted.

THE AWAKENING.

The Wichita Beacon prints the following editorial indicating that Wichita understands the fundamental meaning of the Sunday revival, says the Empress of the West. The message of Christ was essentially social. His plan was for human justice. The Beacon says:

One of the things which the Men and Religion Press movement is doing to bring to Wichita is, perhaps, the most important thing that is being done by any man who has made a study of this line of work for years. Socialism is being applied (Christianity, it is being applied in obedience to the command of Christ who said, "Follow me." For nearly twenty centuries the real meaning of this command has been obscured by the dissemination of creeds and theories, and only recently has the Christian world begun to awaken to his real mission. When Charles M. Sheldon told the world a little more than a decade ago that it was the duty of man to follow in his steps, he was regarded as a visionary and impractical man, but there has been a wonderful change since then, and Sheldon's book has had a great deal to do with the change. Christian men are thinking as they never have thought before over the problems of social life. This is apparent here in Wichita as well as elsewhere.

The awakening has come, the need for intelligent and systematic investigation into existing social conditions is apparent to all who have given the matter any consideration, and the opportunity that will be accorded by the Institute work next week under the leadership of Raymond Folsom will afford all persons interested in this subject much assistance and information that will be of value to them in their efforts to make known the message of Christ in practical service to man.

How true this is. Many there be who shall call Lord, Lord! But how little they know what Christ means to this world. If the church knew they would be full of the poor and disinherited. But we must teach the churches—the age must teach the church about the new heaven and the new earth—made by the service of man to man, filled with brotherhood, devoted to that inexorable law that makes happiness follow kindness.

ONE THING NEARFUL TO KNOW.

By T. J. Brooks, in The Era
Nature has no pity, no desire, no hate, no love. She smiles mercilessly at all who violate her laws. She does not excuse ignorance nor pardon neglect. Transgressors come unwritten law of health and down you go, no matter how good and useful your life may be. Pestilence nor famine nor misfortune take cognizance of morals or faith. "Obedience to the law or perish" is the inexorable mandate issued without quarter or favor.

The storm blows, the earthquake kills, the volcano consumes, the sea swallows, the sun suffocates and the North Wind freezes the just and the unjust. A river has as the drowned a child as float a ship.
Wild Nature is armed with ruck, claw, beak, horn, sting, fang and thorn to use as weapons of warfare. About the only lesson man ever learned that is worth while is how to obey the rules by which Nature works. And the pity is that no man ever learns it till too late—and some not even then.

The torture, pain, suffering, misery and anguish of the human race are nearly all traceable to the lack of knowledge and appreciation of Nature's ways.
Bismarck spoke of cannon balls as the "iron darts of destiny." Cromwell said that battle ships were the best ambassadors. Napoleon said that Providence fought on the side of the heaviest artillery. Franklin said that the Lord helps them that help themselves.

Power backed by consummate skill rules the world. Soil yields to knowledge and work. The elements troop after nature to do his bidding. Both man and dumb Nature obey him who is Master by endowment and preparation.

We turn with horror from this awful work. We are punished by sin, not for it. Peace lovers round purity.

How pitiful that so many are skilled in the arts and crafts and yet unskilled in the conservation of themselves.

The greatest art on this earth is

the art of self-conservation.

Only a very small per cent of the brain-power of the human race is used. Wanted energy represents the waywardness of the pilgrims of this earth. Could all the inhabitants of this globe exercise the skill and power lying dormant, such changes would overtake the nations of the world as would bewilder and enchant.

THE POOR MAN'S CLUB.

Only a man has done well financially on the theory that the saloon is the poor man's club. By catering to this class a good mixer with credit at the bar and some mahogany fixtures has been known to amass a small fortune in diamond shirt studs, and a large paunch before kidney trouble got him. Incidentally, he kept his clientele poor. If some were not poor in the beginning, he made them poor, that they might better appreciate the home-like surroundings of his poor man's club, while the folks at home didn't very well. This saloon theory as a social center for the proletariat is not new to the saloon, its keeper and hang-around, and the results are pretty generally the same, bad.

But it remains for the Socialist party to endorse the idea in a political platform, as they have done in Milwaukee. Prattling as the party of the oppressed and down-trodden, the Socialists there declare that they don't propose to see the few places now available to the poor eliminated. Therefore they are strong for the saloon, and should poll a heavy vote among the bar boys. Possibly the idea will be popular in Milwaukee, made famous by the dude it sells.

Nor is it so strange that the Socialist party should be the one to spring it. Over the cup which cheers and cheats, have been sprung many of the notions of Socialism, much of the notion that the poor man has no chance in this capitalist climate. Nor has he much of a chance as long as he frequently this poor man's club it will make him poor and keep him poor, it will sicken his purse, his health and his ambition, not to mention morals, and other assets on which success is built. Possibly the rich man can afford a nip now and then, although he takes it at the risk of health and wealth, but the poor man who depends on his own efforts entirely, and in no sense on safe investments, puts in a path that's rough at best an unmountainable obstacle when he makes the free lunch his favorite social function.

All this without wishing to deny the poor man a pleasure which may be his due. He should have, and in most cities has, pretty public parks, cheap theatres, gymnasiums, libraries, concerts, and many other pleasures worth while; true recreation which shall help him overcome poverty or make it quite bearable. The poor man's club will never help him on his way.

EAGLETIPS.

It is a poor horse doctor that can't find something the matter with yours.

When an automobile comes in on three wheels it reminds one of the horse with a nail in its foot, and to about as expensive.

Some high bills are rarely ever paid.

The fact that a man admits his faults doesn't help them much.

There are many good stories going around but are in bad hands.

When one moves from a city to Dothan it is some time before they get through referring to what was done in their former home and comparing the advantages with Dothan's.

You hear much of the man who will tell the truth under all conditions and circumstances but you never see much of him.

The man who talks up on the stage to introduce the distinguished guest raises the people to compare his remarks with those made on former occasions.

Probably the 1913 model automobile due to be out this spring, will not make as much fuss as the older models.

Most of the magistrates are not worth reading after you pass the advertising section.

You find a good many people who don't care to start much of an undertaking, on Friday.

Occasionally a marriage on short acquaintance turns out alright, but the margin is too small to risk on so important a deal.

It would appear that some of the bigger colleges would be failures unless they got up a great deal of interest in the athletes.

About the politest men one meets nowadays are those who want to get you on their scheme.

Probably every man feels like he will come out much hotter next year.

From the dress of some girls, one gets the idea they don't dress for comfort.

TIMELY WARNING.

TO CALOMEL USERS
Calomel is a Form of Mercury, and it stays in the Human System, its Effect is Terrible. Ask Your Doctor.

A physician will tell you that mercury, if it remains in the body will soften and rot the bones, a disease doctors call necrosis of the bones. Calomel is a form of mercury and to keep clear of danger, it is not a plan to take no calomel at all especially as there is a better remedy.

Both children and grown people will find a perfect substitute for calomel in Dothan's Liver Tonic, a pleasant, vegetable tonic that induces the liver to act and which never has any after-effects. In fact, Dothan's Liver Tonic will do every thing that calomel does without any of the dangers of calomel. A large bottle costs only 60 cents, and Dothan's Liver Tonic will refund your money if you are not satisfied.

United States to Keep Hands Off of Mexico

STOOD ON BORDER DOES NOT MEAN AFRICAN INTERVENTION, IN MOBILE TALKER

Washington Feb 6. Intervention in Mexico by the United States is not intended by any mobilization of troops, which might be ordered by the boundary line.

This was the attitude of the State Department telegraphed today to various consular and diplomatic representatives in Mexico who had complained with intervention talk there was forcing a dangerous and American sentiment.

The State Department reiterated emphatically that this government had no interest in Mexico beyond the safety of American lives and interests but from the same consular and cable come reports far from reassuring as to stability of the Mexican government. No specific formal appearing was recorded but small uprisings regarded as symptoms of general dissatisfaction led to an apprehension that the mobocrats may unite confronting the government with a serious crisis.

Anticipating possible orders from President Taft to move once more to Texas to enforce neutrality law and justice a report for American troops in the northcountry where they are reported to be operating, the general staff has completed plans for a big troop movement that should become necessary if exigencies already are prepared ordering department commanders to move their forces southward although the organized militia plan is not concluded.

The National Guardmen it was pointed out today cannot be sent out of the country except to repel an invasion. The availability of the general staff is attributed to the eagerness to show quickly the general troops can be moved on a force east of international developments.

MONTGOMERY COMMISSIONERS GIVE STRINGENT ORDERS

Montgomery Ala Feb 7. The city commissioners of Montgomery have authorized Commissioner to

Joseph to be the reservoir and standing pipe of the municipal waterworks system. Heated regardless of cost have given back to the residents of West End the Bell street fire station. The station is the most stringent of dry ordinances which it is believed will prove of great benefit to the city of large.

The commissioners' actions in regard to the water system is the result of an investigation which has been in progress for several days to determine whether or not the fire station water of this city is in any way infected.

The large number of typhoid fever patients in the city has given rise to some questions as to the purity of the water and in order to allay all fears on the part of the residents of Montgomery the commission has ordered that all reservoirs and standing water pipes be thoroughly cleaned regardless of any expense.

The commission at a meeting some time ago agreed to dispose with the Bell street fire station in West End this action being considered necessary in order to curtail some of the city's heavy expenses. Residents of West End immediately entered a strong protest against taking away their fire station with the result that the department has been given back to them.

The commissioners have also passed an ordinance preventing the sale of milk from cows which are held only for sale. It has been learned that some cattle dealers have been selling milk from cows corralled in their stock pens and this milk is regarded as insanitary. Milk sold in the city cannot contain more than 500,000 bacteria per cubic centimeter and all cream sold must contain 18 per cent of butter fat.

COUNTIES

WILL HOLD CIVIL SERVICE EXAMINATIONS

Under the direction of district assessor H. F. McVary the civil service examinations for the railway mail service will be held in Dothan on May 4 next. Any male persons between the ages of 18 and 35 may put in their applications for the examination and if eligible will be given an opportunity to try for the positions. There are only five cities in Alabama that are stations for the examinations and they are Dothan, Huntville, Montgomery, Mobile and Grapeland.

GRADE WOULD NOT COST SO MUCH

Some of the councilmen who favor the idea of grading Main street according to the plans submitted by DeWitt Smith at the last meeting of the body are of the opinion that the job would not be a very costly one and that no one would be greatly affected by the expense.

The plans DeWitt and Smith submitted were that the property holders along the street pay three fourths and the city of Dothan on fourth of the cost of the grading of the street out to the incorporated limits or as far as the buildings go. The small branch between Westover and Houston Heights will require a sewer which will be of concrete and this will probably be the largest expense of the job. If this is graded it will be one of the best automobile drives in the city and will connect with the drives of Houston Heights.

The matter is now in the hands of the street committee, who have not yet acted but who will report at the next regular meeting of the council.

Bridge at Columbia To Be Sold to Pay Town's Expenses

COLUMBIA REFUSES TO PAY AN INTEREST ON OLD ISSUE OF BONDS

Columbia Mo. Feb. 5. The old bridge spanning the Chittahoon river here and for fully twenty years owned and operated by the town of Columbia must be sold to satisfy a bonded debt of \$20,000 due by this town to the Chicago Title & Trust Company according to a decree rendered by Federal Judge Thomas C. Jones of Montana.

The town at present, Columbia is a part of a century ago authorized to town to issue \$20,000 in bonds to build a bridge from the town to the town. The bonds were bought by the Chicago Title and Trust Company. Recently the town of Columbia refused to pay further interest on the bonds, maintaining that the act incorporating the town was void. Judge Jones, however, holds the act good and orders the bridge sold but will require to set up the money together.

BYRAN SAYS DEMOCRATS ARE ALLIED WITH WALL STREET

San Houston Tex. Feb. 5. It is the misfortune of the party to have some members who can be misled by Wall Street and it is still greater misfortune to have some members who are most completely under control of the predatory interests as my of the republicans. The money trust did not want any investigations at all. When it could be prevented in my way then it then sought to secure an investigation by the banking committee. It has at once and makes a whole symphony in sympathy with the money trust. It was in my judgment a grave mistake to follow the trusts in such a party. I fear that the investigations will move a cure. If the banking committee begins at once and makes a thorough investigation I shall be both surprised and delighted. So declared W. J. Bryan in a statement issued regarding the result of last night's democratic caucus with regard to investigating the so-called money trust.

Misled by Wall Street and under the control of the predatory interests and demagogues whose sympathies are with the money trust was one of the arguments of W. J. Bryan in his statement which ends with warning given by W. J. Bryan of Texas the hour in which we propose to have the money trust come under the from a special committee was voted down 31 to 10 by last night's caucus.

Mr. Bryan's statement is as follows:
